

### Course Club 50+

We created this course for seniors especially those over the age of 50, who want to learn the basics of the Spanish language. Furthermore for those who want to get to know the Spanish culture with its traditions. The majority of our students is 18 – 30 years old and wants to learn Spanish as fast as possible for their studies. Therefore Instituto Andalusí created this course which focuses on the needs of elder people who are interested in learning Spanish for real conversations (for example eating in a restaurant). The lessons concentrate on the grammar, important vocabulary to understand the Spanish language and culture. The course program consists of: interviews, role plays, watching movies, listening to music, activities outside the school.
